

Vincent Zhu

Bayonne, New Jersey | vzhu64@icloud.com | 201-673-8229 | <https://www.linkedin.com/in/vincentzhu1/>

EDUCATION

Stevens Institute of Technology - Hoboken, NJ

Expected May 2029

Bachelor of Engineering in Computer Engineering GPA: 3.0+

Relevant Coursework: Digital Logic Design, Calculus, Physics, Circuits and Systems, Computational Data Structures and Algorithms

SKILLS

Hardware: Arduino, ESP32, Moisture and Ultrasonic Sensors, PC Building, Mechanical Keyboards, Automotive Repairs

Languages: Java, Python, C++, C

Software: VS Code, SOLIDWORKS, FLASHFORGE, Arduino IDE

Languages: English(fluent), Mandarin Chinese(Intermediate)

PROJECTS

Automatic Plant Watering System | Team Project

September 2025 - December 2025

- Collaborated with a team of 3 to design and build an automated watering system using an ESP32 microcontroller, soil moisture sensor, and water pump
- Programmed the microcontroller to read sensor data, publish readings to an MQTT database, and activate the pump when soil moisture fell below a set threshold
- Calibrated sensor sensitivity to prevent over-watering and tested system reliability over a one-week period

Obstacle-Avoiding Robot | Team Project

January 2026 - May 2026

- Developed an autonomous robot capable of navigating to a designated point while detecting and avoiding obstacles in real time
- Collaborated with a team of 3 to design the chassis and assemble the robot without using a breadboard
- Integrated ultrasonic sensors and implemented motor control logic for real-time navigation
- Programmed in C++ to process sensor inputs and execute navigation decisions
- Successfully completed the robot and were accepted to a contest offered for the project

EXPERIENCE

Panda Express | Bayonne, New Jersey | Cook

August 2024 - Present

- Served as Person in Charge on multiple occasions, overseeing store operations and staff in the absence of a manager
- Trained 8 new kitchen staff on food preparation procedures, safety protocols, and equipment operation
- Supported managers with inventory counting and ordering, helping reduce stock discrepancies
- Coordinated with front-of-house staff to maintain service flow during peak hours

Panda Express | Bayonne, New Jersey | Customer Service

November 2021 - August 2024

- Delivered efficient customer service in a fast-paced environment, handling 50+ orders per shift with accuracy
- Processed payments across cash, credit, and mobile platforms with zero discrepancies
- Collaborated with team members to ensure smooth operations during peak hours

AFFILIATIONS

Affiliation: Stevens Technical Enrichment Program(STEP)

Available to work: January - May 2027
